(時間 40 分鐘，請用藍、黑色筆寫，約 150 字)

Using cellphones long time is unhealthy for kids, so I agree that elementary school students should not use cellphones at school.

For example, when the students in class, if they use the cellphone, they may not be serious because doing two things at the same time is difficult.

Students play games with their cellphones, it's very interesting, but it also hurt their eyes easily. Elementary school students is too young, their eyes is also too young, so they use cellphones may hurt their eyes more.

When I was a elementary school student, my mother never let me use the cellphone. She said "It's unhealthy for your eyes and you will study badly". At that time, I was angry at her until one thing had happened.

My friend, Lily, she couldn't see anymore because her eyes was hurt. I went to hospital and saw her. I asked her mother what happened to her. Her mother said "Because she used the cellphone too early and used it long time."

At that time, I knew why my mother never let me use the cellphone. Now, I use my cellphone carefully, and never use it long time.

I agree that elementary school students should not use cellphones because I saw the same experience from my friend when I was a elementary school student.

Most important of all, if you want to have healthy eyes, please don't use your cellphone long time.
