I agree with statement that elementary school students should not use cell phones at school.

It is not a good thing for elementary school students to use cell phones at school. When the elementary school students use their cell phones at school, they also lose these things.

One of they lose things, they lose their "Friend" because they are crazy about their cell phones games, and they forget their friends.

Another of they lose things, they lose their "Healthy" because the smart cell phones are unhealthy for us. Although a lot of people know it, when the new modern and beautiful smart cell phones come out, people will forget it, and buy a new one right away.

The most important of they lose things, they lose "Education" because the students might forget the most important for school is education. The thing might be terrible, so we should make a decision to stop students using cell phones in class.
